U-238 Bluetooth Wireless
Headphones User Manual

Your NuclearAV U-238 Headphones Feature:

-  Powerful 40mm neodymium magnet speaker drivers delivering mind-numbing audio quality with hard hitting bass and stunning highs.
-  Bluetooth 3.0 connection delivering music wirelessly from any Bluetooth device, such as iPods, iPhones, Android Devices, Cellphones, MP3 Players, Tablets, Laptops, and Computers.
-  A built-in rechargeable Lithium-Ion battery with a whopping 10 hours of playback time that is easily rechargeable from any standard USB port or optionally from a micro-USB charger such as the one that comes with most modern phones and tablets.
-  Supple leather ear pads and a soft padded adjustable headband for a comfortable headphone wearing experience.
-  Call controls and a built-in microphone to ensure you never miss a call while the headphones are paired with a compatible Bluetooth cellular telephone.

This Package Contains:

- 1 x U-238 Wireless Headphones
- 1 x Micro-USB Charging Cable
- 1 x Instruction Manual

Headphones Overview:

1. Headband Adjustment Point
2. Skip Forward - Next Song Button
3. Skip Back - Previous Song Button
4. LED Status Indicator
5. Power/Function Button
6. Volume Up Button
7. Volume Down Button
8. Micro-USB Connector

PLEASE FULLY CHARGE HEADPHONES BEFORE USE!

Before using your headphones for the first time, you must fully charge the headset's Lithium-ion Battery. We recommend charging them overnight the first time, but the headset typically fully charges in 3-4 hours.

Micro-USB
Charging Port

Charging Your Headset Battery

Charging Option 1 - Connect the included Micro-USB Cable to the headphone's Micro-USB Port (#8 on Page 3). Connect the other end of the cable to any standard USB port such as the ones found on most computers, some vehicles, or phone/tablet wall chargers.

Charging Option 2 - Most modern phones and tablets utilize the same Micro-USB charging connector that the U-238 headphones use. You may use the Micro-USB charger that came with your phone or tablet to charge your headset.

Turning Your Headphones On/Off

Power ON - Press and hold the Function Button for 3 seconds until the LED Status Indicator Turns Blue. A voice prompt will say Power On.

Power Off - Press and hold the Function Button for 5 seconds until the LED turns red.

Bluetooth Pairing The Headphones

Enter Pairing Mode - With the headphones turned on, press and hold the Function Button for 6 seconds, release when the LED Status Indicator begins flashing red and blue.

You will need a cellphone, tablet, computer, or MP3 player with Bluetooth compatibility to complete pairing.

The following is a general guideline that will allow you to pair your headphones with most Bluetooth devices. Pairing procedure may vary between different makes and models of phones, tablets, or computers. Please refer to your device's instruction manual for specific pairing details.

1. Place your headphones within 3 feet of your device.
2. Enable Bluetooth on your cellphone, tablet, or computer.
3. Enter pairing mode on your headphones. (See Above)
4. On your device, select Search for New Bluetooth Devices.
5. Select U-238 Headphones from found devices.
6. If device asks for a Password or PIN#, enter: 0000
7. The device will now pair and if successful, the LED indicator light will blink blue. If unsuccessful, please please turn off your headphones and try again.

Phone Call Control

Headphones must be paired to a compatible Bluetooth cellphone. Not all phones support Call Controls, and available Call Controls may vary by cellphone. Please refer to your cellphone owner's manual for more info.

Voice Dial - Press and release the Function Button for 1 second, you will hear an indication sound for your call command.

Redial Last Number - Double click the Function Button.

Volume Up - Press the Volume Up Button (+ Button).

Volume Down - Press the Volume Down Button (- Button).

Answer Ringing Call - Press the Function Button.

Reject Ringing Call - Press and hold Function Button, release when you hear an indication sound.

Music Playback Control

Headphones must be paired to a compatible Bluetooth cellphone, tablet, or computer. Not all devices support Music Playback Controls, and available controls may vary by device. Please refer to your device owner's manual for more info.

Pause - Press the Function Button.

Resume - Press the Function Button.

Volume Up - Press the Volume Up Button (+ Button).

Volume Down - Press the Volume Down Button (- Button).

Next Song - Press the Skip Forward Button (> Button).

Previous Song - Press the Skip Back Button (< Button).

Please note that the device must support AVRCP in order for the headphones to control music playback!

Troubleshooting

1. Hearing and indication tone and red LED indicator light every 20 seconds.

Low battery power, please connect your charger.

2. Headphones are paired but music is still playing through the cellphone's speakers.

Some cellphones have an option that must be set to transmit music to an external device. Please refer to your cellphone's user manual.

3. Call Control or Music Playback Controls are not working.

Ensure that the device your headphones are paired with supports AVRCP. Some phones and devices may not support the control features of the headphones. Please refer to your device's user manual.

4. My headphones will not pair with my computer/laptop.

Please ensure you have the latest Bluetooth drivers installed for your operating system. Some computers and laptops with Bluetooth do not support audio over Bluetooth connections.

5. My headphones are paired with my phone but they are not automatically reconnecting when I turn them on.

Some cellphones have an option that must be turned on in order to enable automatic repairing. Please see your cellphone's user manual.

6. For all other issues please visit our website below.

Warranty Information

One (1) Year Limited Warranty Period

Your NuclearAV headphones are warranted against defects in materials and workmanship for a period of one (1) year from the date of original retail purchase from an authorized NuclearAV dealer. If a defect exists, NuclearAV at its option will (1) repair the product at no charge using new or refurbished parts, (2) exchange the product with a functional equivalent product that is new or refurbished, or (3) refund the original purchase price. This does not mean you can abuse your headphones and expect warranty service. We do not cover normal wear and tear, blown speakers, cut cords, bent jacks, scratches, loss or theft. This warranty excludes damages resulting from a abuse, accident, modifications or other causes that are not defects in materials and workmanship. Customization of your product will void your warranty.

Any recovery is limited to the original purchase price. No other person is authorized to modify this limited warranty. Your seller is responsible for any other warranties.

This warranty gives you specific legal rights, and you may have other rights that vary by state and jurisdiction. These rights shall not be affected by this limited warranty. This warranty cannot be transferred or assigned. NuclearAV shall not be liable for any loss, injury or damages to persons or property resulting from the use of this product or any failure of or defect in this product, nor shall NuclearAV be liable to the initial user of this product or to any other person or entity for any general, special, direct, indirect, incidental, consequential, exemplary, punitive, or other damages of any kind or nature whatsoever.

To obtain warranty service, contact NuclearAV by visiting our website at <http://www.nuclearav.com>. Proof of purchase is required to verify eligibility.
